

30 Years of Outstanding Quality & Service

Specific characteristics of this series:

- ✓ Vacuum both dry and liquid substances.
- ✓ Always maintains the same superior suction power.
- ✓ Cyclonic effect vacuum.
- ✓ No filter or bag needed.
- ✓ Lifetime warranty on casing.

Outdoor exhaust required

This series works with a cyclonic filtration system. An outdoor exhaust will evacuate the microdusts, allergens and odors outside.

Coal dust collectors

Float

If the device is used to vacuum liquid substances, we recommend the use of a float that will indicate the maximum capacity by cutting off the vacuum.

Capacity up to 46 L

The largest bucket we offer.

Versatile!

With an optional:

- Filter cartridge
- Power head separate from the body
- Booster head *

No filter or bag needed

Simply empty and clean the bucket when required.

WET DRY

Maximum liquid level

A sticker indicating the maximum liquid level recommended. Beyond this line, the bucket gets very heavy when it comes time to empty it.
