

GENERATION 2 SERIES

Residential

Specific characteristics of this series:

- ✓ Wide variety of models with single or double motors.
- ✓ Quiet motor(s) from only 58 decibels!
- ✓ Permanent filter and dust bag included.
- ✓ Activac II filter or muffler & exhaust vent provided with the unit.
- ✓ Bucket with large capacity.
- ✓ Lifetime warranty casing.

Models with 1 or 2 motors

When an exhaust vent is possible, a two motor model may be advantageous in terms of mmH₂O, or m³/h.

Capacity of 9 imp. gal. / 41 L

Change the dust bag less often.

Head and bucket in PC-ABS FR3010

- Thin and light walls: 1/8 in (3.2 mm).
- Higher impact strength compared to the casing of the Pro1 & Pro2 series.
- Resin from the automotive field.
